British Standard Code of practice for **Pipelines**

Part 2. Pipelines on land: design, construction and installation

Section 2.1 Ductile iron

Canalisations. Code de bonne pratique

Partie 2. Canalisations terrestres: conception, construction et installation

Section 2.1 Fonte ductile

Leitfaden für Rohrleitungen

Teil 2. Landverlegte Rohrleitungen: Bemessung, Bau und Montage

Abschnitt 2.1 Rohrleitungen aus Gußeisen

Foreword		Inside front cover	
Committees responsible		Back cover	
Code of practice		Subsection six. Construction	
Subsection one. General		24 Trenching	13
1 Scope	2	25 Pipe inspection, repairs and cutting	13
2 Definitions	2	26 Laying, jointing and anchoring	14
3 Applications	2	27 Backfilling	14
4 Safety	2	Subsection seven. Cleaning, testing and commissioning	
5 Inspection	2	28 Cleaning	15
		29 Testing	15
		30 Commissioning	16
Subsection two. Materials and availability		Appendices	
6 General	3	A Types of joint for ductile iron pipelines	18
7 Pipes	3	B Effect of non-metallic materials on water quality	22
8 Valves	3	C References	22
9 Flanges	3	D Further reading	22
10 Bolts, nuts and washers	3	Tables	
11 Gaskets	4	1 Maximum hydraulic working pressures, exclusive of surge, for ductile iron pipes and fittings and flanged joints	6
Subsection three. Design considerations		2 Maximum site hydrostatic test pressures for ductile iron pipes and fittings and flanged joints	7
12 Pipeline design	5	3 Stacking heights	12
13 Pipe design	5	Figures	
14 Service and environmental considerations	5	1 Push-in joint (type 1)	18
15 Pipelines on supports	8	2 Bolted mechanical joint (type 2)	18
16 Access to the pipeline	8	3 Slip-on coupling (type 3)	19
17 Protective devices and under pressure connections		4 Flange adapter (type 4)	19
18 Joints		5 Self-anchoring flange adapter (type 5)	20
Subsection four. Protection against corrosion		6 Self-anchoring push-in joint (type 6)	20
19 Pipes and fittings	10	7 Self-anchoring tie-bar joint (type 7)	20
20 Joints containing steel components	10	8 Self-anchoring bolted mechanical joint (type 8)	21
Subsection five. Transport, handling and storage		9 Lead-caulked joint (type 9)	21
21 General	11	10 Flanged joint (type 10)	22
22 Transport	11		
23 Handling and storage	11
